

Sick of cleaning up
after other
people's
parties?

Join the party that won't
make a mess of things.

Election fraud, job loss, low wages, the war in Iraq, expensive healthcare, air pollution, unsafe drinking water, poisonous chemicals in our food... Aren't you tired of their mess?

In communities across the country, elected Greens are working hard for electoral reforms, living wages, healthcare for everyone and safe living environments for all. The Green Party is working toward an end to the war in Iraq and the unconstitutional PATRIOT Act. We have sensible solutions and we are implementing them locally every day, not just talking about them during election season.

Join the global party that has practical solutions to the mess made by the other major parties. Register Green. Vote Green. Give Green.

Party Green! Come home to the Green Party!

Now through December, you're invited to party with us.

Visit our website to join the solution, find a Green house party near you, and give Green!
